

Greetings from Margaret

I would like to send greetings and say how helpful the month was that I spent at Mill Grove doing a placement from Bible College. As a secondary school teacher I had a lot to do with teenagers but wanted to have more experience with younger children. So it was a very good preparation for me as I later found myself working with children of all ages in poor areas of Lima, Peru. And what started out as children's Bible clubs, with God's help, led to Bible studies with parents, and eventually the formation of several churches! This is something I couldn't have imagined!
