

# Bob & Sylvia's Family News

27<sup>th</sup> April 2020

Hi Keith and Ruth, We have received our copy of *Links*, thank you. Below are pictures of Andrew's journey over the last 7 months. Other news: Abi opened her own hair salon last summer and is obviously keen to get it open again after this lockdown and Dan is very busy at Addenbrookes Hospital in ICU and critical care. Looking after Covid 19 patients and training up nurses. Here he is in his PPE.

Just wanted to let you know that yesterday we got the news that Andrew's treatment has been a success and the cancer is gone. Just check-ups in two months' time to begin with. He's kept the weight off that he lost during treatment and his beard and hair is growing back darker and greyer !!!! Just sending you some pictures of over the last six months of Andrew, and the family helping him through it. He has been amazing and stayed positive throughout. Take care and love to everyone.

Debbie xx
